

Flexibility and service

As the largest manufacturer of inert balls and tower packings in Europe VFF is also able to offer short lead times. This saves the customer long start up or storage times. Individual wishes (e.g. packaging) can be realised by VFF at any time. VFF delivers the products you order on time to the desired site. Plus our technical staff are always available to provide expert advice.

Service - Consultation - On-site installation

On request our VFF Technical Team will be glad to advise you on the choice of the right item and will help you with all questions regarding our range of products. Our VFF-Software supports you in a simple and self-explanatory way to find the right random packing. Our skilled VFF-staff will also execute the installation of the demister and internals and offers its competent support on site.
